Puts the Power of Community in Your Hands

City of Newberg, Oregon is pleased to introduce YourGOV — a pair of simple Citizen Request Applications that allow you to personally report non-emergency issues and service requests via the web, or directly from your Apple iPhone™ and Android™ enabled smartphone.

In just three easy steps, YourGOV helps you report community issues — such as potholes, vandalism, street light outages, and more — complete with location, details, and photos.

Once submitted, YourGOV will automatically deliver your request to the City of Newberg where it will be reviewed and routed for proper handling.

By using YourGOV, you can help the City of Newberg become a more responsive, more sustainable, and more collaborative community. To learn more, visit our website at www.newbergoregon.gov
